Development Assignment

Goal: Develop a simple responsive website for listing the artwork that is currently part of Art Institute of Chicago. Users should be able to export artwork data for pdf format. The website should also include a gallery section where users can browse pictures of the artworks.

Remark: The solution must be built with MVC and ASP.NET Core. It should utilize the https://api.artic.edu/docs/#introduction.

Deliverable: Link to public BitBucket/GitHub repository. Deadline: July 30th, 5pm CDT.
